Her safe job as an accountant is bookended by going to church and the gym. Okay, sometimes the gym. Fine. She goes to church. And the coffee shop. She avoids risk at all cost, preferring to stay safe in her cozy condo. Until her accounting firm goes belly up and she's out of a job.Tyler Hawk had a glorious career as a star NFL tight end. He retired on a high note and now lives a second dream of owning his own business and leading others on extreme outdoor adventures. But he needs help with his booksmdash;and his heart. When Allegra takes the job, sparks fly.Itsquo;s a case of safety zone versus danger zone, and in their minds, never the two shall meet.I sometimes hesitate to try a new author, but in this case, I'm glad I did NOT hesitate. Mikal Dawn has written a very, very good debut novel. I enjoyed it immensely. She has created believable characters, good plot and great scenery, along with adventure! I thoroughly enjoyed this and look forward to her next novel.2 of 2 people found the following review helpful. Fantastic!By CDeesBooksI am always on the lookout for new authors to follow, and Mikal Dawn has just made that list with her debut release, Count Me In.Count Me In is a fantastic, lighthearted Inspirational romance that snagged my attention from the very first page, and I loved the main characters, Tyler Hawk and Allegra Spencer. They are realistic and relatable and funny. Watching Allegra learn how to leave her comfort zone and Hawk learn how to quit trying to shove her out of it was a LOT OF FUN, and I'm looking forward to seeing what happens with the secondary characters in future stories!Count Me In includes the timeless theme of conquering fear, and the author deals with it in a heartfelt but humorous way that left me smiling rather than feeling overwhelmed or emotionally drained. I love books that draw me into the story and allow me to escape a hard day's work for a little while, and my favorites are the ones that make me laugh and leave me smiling. Count Me In is one of those. This author knocked it out of the park! (I'm sorry, Tyler Hawk, I don't know what the football equivalent of a home run is. LOL)I will DEFINITELY be reading more from her!(I received an advance copy, but I was not required to give a review. All opinions expressed are my own.)1 of 1 people found the following review helpful. Great debut novel!By Popp BooksMikal Dawn's debut novel, Count Me In, is filled with adventure, humor, and romance galore! After Allegra Spencer loses her job when the company she works for unexpectedly closes, she has to find a new job pronto. A chance encounter at her favorite coffee shop leads to an interview with outdoor adventure company, Hawk's Flight, owned by former NFL player and extreme sports enthusiast, Tyler Hawk. Although Allegra is not into outdoor

adventuring at all, she accepts the job as the company's new accountant even though her contract requires her to experience every outdoor excursion the company offers at least once. The chemistry between Allegra and Tyler is intense from the beginning despite their vastly different personalities, but their working relationship creates a barrier neither one of them knows how to circumvent. After some rather serious financial mistakes occur under Allegra's watch and with romantic tensions running high, Allegra must decide if a new job offer in Portland is the solution to her broken heart while Tyler must confront his true feelings for Allegra and take action before it's too late. Count Me In presents a captivating love story that delves into the emotional tug of war both Allegra and Tyler experience as they try to navigate their feelings for one another against their professional obligations. I was drawn into their dilemma and felt the hope, despair, and frustration of their stifled romance. What I particularly enjoyed about this book and found exceptionally refreshing was the humor laced throughout the book! Dawn had me in tears one minute and in stitches the next! Humor can be hard to pull off, but Dawn mastered it with her first try! Happy I found this new author to add to my "favorites" list! This review contains my own thoughts and opinions. I have not been compensated by the author or publisher in any way.

\*This is a romantic comedy with a Christian worldview.

About the Author Mikal Dawn is an inspirational romance author, wedding enthusiast and proud military wife. By day she works for an international sports ministry, and by night she mutters to imaginary friends, performs sketchy Google searches, and procrastinates (like any good writer!). When she isn't writing about faith, fun, and forever, she is obsessively scouring Pinterest (with coffee in hand, of course!) for wedding ideas for her characters. Born and raised just outside of Vancouver, Canada, Mikal has lived throughout the southern United States, currently residing in Nebraska (and loving it!) with her husband, three kids (two of whom she drives \*everywhere\* for ALL THE SPORTS), and one ferocious feline.
